

# Save Water, Save Salt, Save Money!

Canature WaterGroup™ High-Efficiency Softeners & Filters offer a significantly higher Return-On-Investment.

# Reverse Osmosis

Canature WaterGroup Commercial RO systems are affordable solutions that remove up to 99% of total dissolved solids in raw feedwater.

## Can 400 800 Series

Produces up to 800 gallons per day.

## WGR Reverse Osmosis System

Produces up to 1,800 gallons per day.

## Can 2540 4040 Series

Produces up to 12,000 gallons per day.

# Detailed Specs Delivered to your Inbox

Get all of the information you need for your project delivered to your inbox in just days.

All we need from you is:

- ◆ Estimated peak flow rate
- ◆ Estimated daily water usage
- ◆ Type of system required (softener, filter, etc.)
- ◆ The water source

Within days, we'll send you a specification package for your project that includes:

- ◆ Budgetary pricing
- ◆ Specification Language Documents
- ◆ Spec Sheets
- ◆ Drawings

The best part? You'll work directly with our team of dedicated engineers from start to finish.

Get your package today:

# State-of-the-Art Commercial Water Conditioning

## We Do It Differently!

- ◆ **Dedicated Team of Professional Engineers** with decades of experience
- ◆ **Precision Engineered Systems** offer Significantly Lower Operating Costs, Capital Costs and Higher Return On Investment
- ◆ **Knowledgeable Field Support Team**
- ◆ **Complete Support** from water analysis, sizing and selection right through to the start-up

High-Efficiency Technology Provides Significant Savings!

**Save Water, Save Salt, Save Money!**

# The Canature WaterGroup™ Story

Canature WaterGroup™ is one of North America's leading manufacturers and distributors of residential and commercial water treatment solutions. Our mission is to provide **Exceptional Value** by producing **Innovative, High Quality Products** in the most efficient manner possible.

With **Fifty Years** of industry experience, we're able to provide unparalleled industry-leading support from start to finish on every project. From water analysis and system selection and sizing to start-up support, we're with you every step of the way. Our team of knowledgeable engineers provides professional drawings and spec sheets for every job.

Our commercial water treatment systems are suited for a wide range of applications, including:

**Laundromats, Car Washes, Restaurants, Hospitals, Schools, Hotels, Office Buildings, Manufacturing Facilities and Livestock Operations.**

# MTS Softeners

## Industry Leading Responsive Flow Multi-Tank Systems (MTS)

MTS systems use **40-50% less salt and regeneration water** compared to conventional systems. During periods of **High Flow Demand** tanks come on-line to add flow rate capacity. During periods of **Low Flow Demand** tanks go off-line ensuring **Optimal Efficiency and Water Quality**.

- Benefits of an MTS System:**
- ◆ Lower Capital Cost
  - ◆ Lower Operating Costs
  - ◆ Increased System Efficiency
  - ◆ Consistent, High Quality Water
  - ◆ Ease of Service

Low Flow Rate Requirement

High Flow Rate Requirement

*We offer a complete line of efficient, high quality commercial water softener systems.*

### 95MTS Series Softeners

The 95MTS softeners can soften **up to 308 gpm\***. Flow rates of up to **44 gpm** per tank and the ability to control up to 8 softeners from a single controller.

*\*Based on one tank being off-line at all times.*

### 105MTS Series Softeners

The 105MTS softeners can soften **up to 462 gpm\***. Flow rates of up to **66 gpm** per tank and the ability to control up to 8 softeners from a single controller.

### FHF Series Softeners

FHF Series softeners provide **up to 885 gpm** of soft water (based on a quadplex system with one tank off-line at all times).

*Available as a Multi-Tank System.*

### Multi-Valve System (MVS) Series Softeners

MVS Series softeners provide **up to 885 gpm** of soft water (based on a quadplex system with one tank off-line at all times).

*Available as a Multi-Tank System.*

# STS Softeners

## Single Tank Systems

### 85TA 1" Series Softeners

Provides **up to 16.6 gpm** of continuous soft water operating as a twin alternating system.

### 95STS Series Softeners

Provides **up to 44 gpm** of soft water.

### 105STS Series Softeners

Provides **up to 66 gpm** of soft water.

# STS & MTS Filters

*Our filters offer a variety of media options to meet your needs including carbon, birm, greensand, chem free, neutralizing, nextsand and more...*

### 95STS Series Filters

Flow rates **up to 17 gpm**, depending on your media choice. The 95STS is perfect for small to medium sized commercial projects that don't require continuously filtered water.

### 105STS Series Filters

Flow rates **up to 48 gpm**. The 105STS is ideal for for small to medium sized commercial applications that need higher flow rates than the 95STS offers.

### 95MTS Filter System

The 95MTS filters can filter **up to 272 gpm**. Flow rates of **up to 17 gpm** per tank and the ability to control up to 16 filters from a single controller.

### 105MTS Filter System

The 105MTS filters can filter **up to 768 gpm**. Flow rates of **up to 48 gpm** per tank and the ability to control up to 16 filters from a single controller.

### Multi-Valve System (MVS) Series Filters

Flow rates **up to 864 gpm**, based on a quadplex system and depending on your application and media choice. Ideal for commercial projects that require a large volume of filtered water.

*Available as a Multi-Tank System.*
